

# New Program Offers Low-Cost Heating To Village Residents

With cold weather taking hold as we move closer to the winter season, it is opportune to announce that we have negotiated a special deal for Lynbrook residents and businesses who use natural gas (KeySpan) for heating, hot water, and cooking.

Through the efforts of Mayor Curran and the Village Board of Trustees, jointly with the Nassau County Village Officials Association, Econnergy has been endorsed as a preferred vendor to provide gas to all Lynbrook customers. During the past 12 months, Econnergy's variable residential gas rates have been lower than KeySpan's for 11 of the past 12 months! In addition, Econnergy will pay a rebate to each new customer equal to 10% of the supply charges on their highest monthly bill. Rebate terms and conditions apply - call Econnergy for details.

Although this may not seem to be a great savings, it is one small step, coupled with this year's tax rate decrease and expanded senior tax discount, to give relief to the heavy tax burden we all face from other taxes.

Econnergy is one of the largest energy suppliers in New York and has served over 500,000 homes and businesses over the past **10 years**. Further information will be forthcoming in a separate mailing and we encourage you to take advantage of this opportunity. Signing up with Econnergy can be done by simply completing an application, which can be obtained at Village Hall (599-8300) or at [www.lynbrookvillage.com](http://www.lynbrookvillage.com) (or complete the application inserted in this newsletter and return to Village Hall).

Like this initiative, we are continually exploring ways to reduce costs through cooperative purchases to continue the progressive tradition of Lynbrook, USA, the Village that leads the Way!
