Lynbrook Station

Effective: August 2019 -
3rd Quarter 2020

Station Renovations Begin *Temporary Parking Reduction* *Partial Platform Closures*

What's happening?

Renovation work is set to commence this summer at Lynbrook Station with two projects that will begin the transformation of the station environment.

Lynbrook Viaduct Repair Project **August 2019 through 3rd Quarter of 2020**

Primary impact: Temporary reduction of parking availability

Description: Viaduct repairs will take place in five phases, starting east of Broadway and proceeding west towards the station building. A portion of the parking area beneath the viaduct will be needed to stage and perform the work; locations will shift with each phase.

Lynbrook Platform Improvements Project **September 2019 through 1st Quarter of 2020**

Primary impact: Partial platform closures

Description: Construction related to platform repairs will not affect train service, but changes to boarding/exiting patterns will be necessary. We will provide updates later this summer.

Thank you for your patience as we work to complete these infrastructure improvement projects in the shortest timeframe possible.
